

# Social Responsibility Agreement

Name: \_\_\_\_\_

Date: \_\_\_\_\_

I understand that, as a client of Action Potential Fitness, I am a member of a community that extends far beyond the physical property of the studio.

I recognize that, while health and safety are ultimately an individual's personal responsibility, we all play a critical role in helping to promote the health and safety of the entire fitness cohort.

I recognize that, just as I have family and friends at home who rely on me to do my part to protect public health, my fitness cohort -including other clients, trainers and gym owners - are all impacted by my actions and my decisions.

I will continue to act in a way that is responsible, honest, transparent and that recognises the social nature of our community and our society.

I agree to adhere to all the Action Potential Fitness policies and procedures, and as well as all the rules, regulations and recommendations of municipal, provincial and federal governments.
